

IPI ROLLER

**Full Service Provider
for Industrial Roller**

FACILITY

- 35,000 sq.ft facility
- 10 ton overhead crane
- Two polymer dispensing machine
- 1,000 mm diameter for polyurethane roller
- 760 mm diameter for rubber roller
- 12,000 mm for total roller length
- Machining shop of crowning, grooving and grinding
- In-house fabrication for steel core, core & shaft journal repair

CAPABILITIES

- Polyurethane roller
- Rubber roller
- Silicone roller
- Wipe / Non-woven roller
- New core / Roller fabrication
- Shaft journal repair
- Crowning, Grooving, Grinding
- NDT Testing
- Coiler Sleeves
- Urethane custom molded parts
- Rubber molded parts
- Laboratory testing

EXPERIENCE

With over 20 years in the industry, IPI Roller has established itself as a leading manufacturer of industrial rollers, catering to diverse sectors including pulp & paper, mining, steel & pipe, plastic film, and textile industries.

CERTIFICATIONS

ISO 9001:2015 IPI is certified under ISO 9001:2015, ensuring stringent quality management practices and continuous improvement in manufacturing processes.

VISIT US !

AS9100D Additionally, the company adheres to AS9100D standards, emphasizing its commitment to quality management specifically in the aerospace industry, ensuring robust quality controls and customer satisfaction.

SUMMARY

With a rich history of two decades, a commitment to quality through ISO 9001:2015 and AS9100D certifications, and a dedication to technological innovation, IPI Roller continues to set benchmarks in industrial roller manufacturing, serving critical sectors nationwide with excellence and reliability.

IPI ROLLER APPLICATIONS

PULP & PAPER & CARTON
 Applicator, Backing, Corona, Couch, Drum, Extruder, Feed, Felt, Flexo, Lay-on, Nip, Pinch, Spool, Wire, Worm

FLEXIBLE PACKAGING / PLASTIC FILM
 Furnisher, Infeed, Lay On, Nip, Press, Rewinder, Sticky, Stripper, Touch

STEEL & PIPE FACTORY
 Applicator, Bridle, Chamber, Cradle, Deflector, Entry & Exit Accumulator, Feed, Hold-down, Magnet Conveyor, Metal Coating (solvent, resin, chromate), Pinch, Passline, Snubber, Squeegee, Wringer, V-roll

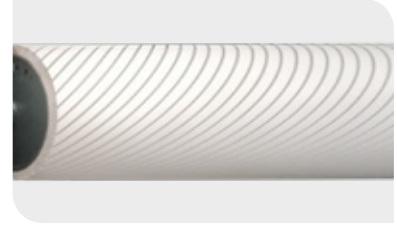

TEXTILE
 Press

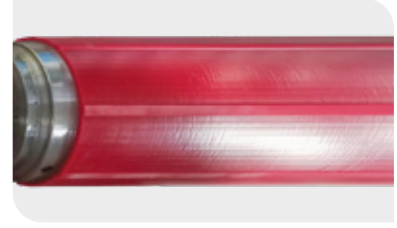

FOOD PROCESSING
 Conveyor grooved, Food grade

PLYWOOD
 Anvil, Contact, Feed, Gummed, Glue spreader, Spindle

GENERAL INDUSTRY
 Breast, Conveyor, Folded, etc

VARIOUS SURFACE FINISH

SMOOTH / FLAT

CROWNING

- Radial Crowned
- Tapered Crowned
- Concave Crowned

GROOVING

- Spiral
- Vertical / Straight
- Horizontal / Lateral
- Herringbone

- Diamond
- Circumferential
- Worm
- Screw-thread
